The Savannah Republican says: The great difficalty experiesced during the past week in negotiating Sterling bills has been sensibly felt in the Cotton market. Our Banks sre not buying much, and what they do, is at a great sacri-

fice to the seller, as they now offer but 4 per cent. premium or bills on England. Domestic Exchanges are getting better constantly, and Bank sight checks on any Northern city are freely affered at 1 per cent. premium. Ameeting of the Boston merchants was held yesterday. Tr Read the following Remarkable Cure performed by NEW-YORK, Oct. 29, 1842. Mr. C. C. Bristol—Sir: The motive that prompts me to address these lines to you, arises from a conviction paramount to that of mere praise of your valuable Sarsaparilla, for if that was my desire I should fail in the attempt, for I

feel as though it would require a more powerful pen than mine to do justice to the high claims of so valuable a medi-cine as Bristol's Sarsaparilla. It is the obligation I owe as one of the vast family of man to those, like myself, whose misfortune it has been to be afflicted as I have been for several years past, that induces me, without solicitation, to make known to the world

what has been an effectual remedy when and where the hope of a cure was almost extinct.

I had been informed that you were to visit this city this fall, when I expected to have the pleasure of stating to you what your Sarsaparilla has done for me, but in this I was disappointed, you having left the city before I knew it; I have therefore taken this method to inform you, and through you, all who may desire to know what my afflictions were

and also what has proved an antidote to the same.

I was attacked with Scrofula in a very alarming form about five years since, which spread rapidly throughout my head, five and throat, internal and external; there were several holes in the roof of my mouth and about the palate, which was nearly destroyed—my speech and hearing so much affected as to leave but little hope that those senses would ever return to me again as they now are. One of my ears was partly destroyed, my nose and the greater part of my face to all human appearance must meet

My nerves were dreadfully affected so as to deprive me of rest or sleep that was any thing like natural, but as one frenzied I passed my sleepless nights and wearisome days. My lower extremities were deathly cold and manimate.—My feet were greatly extended in size from what was called Dropsy, and in addition to this, for many years I was at flisted with Piles in their most severe and distressing form, which is now removed, together with most of my great affictions, through the use of your Sarsacarilla alone, after having the best medical treatment the city afforded.

I am now hearly well—my face has been saved, my mouth and throat healed, my speech and hearing restored, my sight improved, which was very doubtful, my sleep become natural and my appetite good; in a word, I am a different person in feeling and appearance, and there remains not a doubt but that Bristol's Sarsaparilla will effectually accomplish a thorough and lasting cure of all my afflictions.

I am at a loss for lappragae, and terms strong, enough to

plish a thorough and lasting cure of all my afflictions.

I am at a loss for language and terms strong enough to speak of your Sarsaparilla as it deserves. It has been to me every thing—to it I owe the preservation of my life moder the direction of a wise Providence, and were I capable I would proclaim to all the world what Bristol's Sarsaparilla has done for me. It will afford me pleasure at any time to informany person who may desire to know any thing I know of Bristol Sarsaparilla.

Yours respectfully, OPHELIA GORDON.

I cancer at the onice of the sun paper this after-noon and requested the publication of the above letter for one week, and was refused by the person in charge of the office, who stated that the letter could not be published in the Sun, as others had the preference in such advertise-ments. I enquired the cause of so strange treatment, I having been a subscriber for the Sun from the first number to the present time; believing, as I did, that I was entitled to the same privilege with others in giving publicity to that which I considered to be my duty to the community, as well as of great importance to the afflicted, that they might as of great importance to the amicted, that they singht know what to apply as a safe and sure remedy. But I was told that my letter could not go in the Sun at any rate. I was also told that if I would wait three months they might put it in the Sun for me. I then left the office.

The Poor Man's Friend!-Such is the title which has been universally given to that excellent remedy for sickness, called

"DR. RUSH'S INFALLIBLE HEALTH PILLS." The agent for their sale in this city, whose office is at 30 Ann street, is in the daily receipt of valuable testimonials of the speedy and perfect cures which they have effected. A letter, which has just come to hand from Poughkeepsie, states that a poor man, who had been afflicted with erysipe las for several years, who had been to many doctors, and had taken Brandreth's, Evans's, Moffat's, Peters's, Beckwith's, Parr's, and other Pills, without the least good, was restered to as complete health as he ever enjoyed by a sin gle box of these Infallible Health Pills.

This statement is not made without the ability to prove it It is not made out of a desire to detract from the merits of another remedy in general use, but to show how much more reliance may be placed on a medicine invented by so dis tinguished a physician as Dr. Rush, than on that which is prepared by unskillful persons.

Rush's Health Pills should be purchased and kept in every family. A dose of them administered in season may save long Doctor's bill. A dozen boxes can be purchased for les money than many Doctors charge for a single visit. They may be taken freely, without the least apprehension. When used for indigestion, they never cause costiveness, but leave the alimentary canal in a healthy state. Their effect is to purify the blood, to clear the head, and to inspire vivacity and good spirits. A minister of the gospel, who has been subject to violent headaches, is ready to testify to their having worked, in his case, a perfect cure. Indeed they have never been known to fail. They are the inveterate enemies of disease.

Sold, wholesale and retail, at the Warehouse, 30 Ann street, by H. G. DAGGERS, whose signature is upon the wrapper of each box. The wrapper is elegantly engraves on steel by Durand & Co. and further to prevent counter feits, a fac simile of Dr. Rush's signature is upon the labe of each box. None others are genuine. Each box is ac companied with directions for use. Price 25 cents a box. A large discount to those who buy

THE GALE OF TUESDAY .- Copy of a letter to Walter K. Jones, Esq. Secretary to the Board of Underwriters, dated LONG BRANCH, Nov. 8.

I Spencer announces to gentlemen that his arrangenents are now completed for supplying according to pre rions intimation, a FINE FUR HAT at a price (83 25) which shall render it emphatically the cheapest as well as lowest priced Gentlemen's Fur Hat ever on sale in this city. It is prepared in the same style which characterizes our finest article, and like that article is offered at a price at which it cannot be continued without an unusually rapid The undersigned with all confidence affirms it to be for the gentleman and economist the most desirable Fur Hat yet offered. (020tf) SPENCER, 245 Broadway.

ment. No. 137 Brondway, informs the public that he continues to manufacture Hats of a description, in quality, lightness and fineness of texture, for \$4.50, fully equal to all, and superior to most, for which \$5 are paid. His newest style is particularly becoming and unique, an improvement to be bound in Hats of his manufacture only, it consists in a graceful curve and set of the brim, than It consists in a graceful curve and set of the brim, than which nothing more beautiful or expressive has been hitherto seen, and which none can fail to admire. This fashion is the result not of mere experiment, but of elaborate study in the certain rules for adapting art to nature, in which the Subscriber has always been most successful. On this point be hesitates not to assert, that in style and in retaining the set of the Hat, (that most desirable quality,) bis Establishment stands unrivalled. His Hats at \$5.50 are a really heautiful article; they are but little inferior to the other in material, while they are equal in style, workmanship and lurability. Remember, 137 Broadway. nl0 ThSTuTS

Tr Orlando Fish, Fastionable Hatter, 157 Broad way, would inform the gentlemen of New-York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly AMBRICAN style of Hats, instend of servilely copying the Fashions of Europe, which are often unsuited to our climate and manners, he rejoices to perseive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by the leading manufacturers,

He offers a Winter style of Gentlemen's Nutria Hats at

\$3.50, and warrants them equal in material, finish, fashion and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are but he wishes a dischard understood that his best rats are not sold at this price, but at \$4.50. These he recommends as equal to any hat sold in New-York at \$5 or under, and challenges for them a comparison with any other.

Gentlemen visiting our city are respectfully invited to call and examine his new stock of Winter hats and judge of their quality. He is confident that, whether the chapter or the best Hat is desired, the inquirer will here be satisfied.

Try him. (s20tf) O. FISH, 137 Broadway.

D Conant, Fashienable Matter, 280 Grand-street, would inform the gentlemen of New-Y that his fall and winter style of Hats are now ready neir inspection.

In strict accordance with the true principles of economy the subscriber has introduced for the economist a beautiful, fine finished, Fur Hat at the low price of \$4, which he notheshatingly affirms is equal to those sold in more expensive parts of the city at \$4.50 and \$5. Persons who have been parts of the cut at \$4.50 and \$5. Tersons who have been in the habit of paying the latter prices for their Hats can now furnish themselves with an article equal in every respect for the sum of four dollars. To those who wish a low priced Hat he offers a fine, finished, substantial article of Fur Hats at \$3, equal to those sold for \$3.50, or even the famous \$3 621 Hat. Also, a complete assortment of Silk Hats, at extremely low prices. ol8 lm CONANT, 230 Grand-street.

FFECTIONS OF THE LIVER .-Every invalid should read and reflect, if they desire a restoration to health.—I venture to affirm, says an eminent writer, that the grandsource of health and disease is connected with the natural or disordered function of the liver and that every chronic or lingering illness arises from some defect there. Ckronic Hepatitis the most frequent form of the disease in this country, is slow in its progressive stages. The organ of attack will be for years suffering under its under mining influence, and yet no real disease will indicate to the patient the plarming state under which he is laboring; any transient indisposition he imputes to a different cause, never suspecting that the liver being affected is the latent source of these disturbed sensations; thus mish d, it is not in his power to take the necessary precautions to guard against this insidious enemy to his repose. The symptoms of this power to take the necessary precautions to guard against this insidious enemy to his repose. The symptoms of this disease are often slight and left for a considerable time, such as fulness after meals, accompanied by oppression, a feeling of vacuity at the pit of the stomach, the mind be comes irritable, memory defective, incapacity for mental exertion prevails, the appetite becomes variable, tongue rurred, mouth clammy, taste vitiated, slight noise causes a start, sleep disturbed with frightful dreams, occasionally an ob use pain in the right side, extending to the top of the shoulder, cramp or spasms is often experienced, and nervous twitching of the muscles and aching pain of the limb, nervous or sick headache is generally caused by it. It of ten appears in the form of cough, ashthara, &c. as diseased action of the liser, either by sympathy or pressure induces a ten appears in the form of cough, ashthma, &c. as diseased state of the liver, either by sympathy or pressure induces a derangement of the functions of the lungs and occasions these disorders. By changing the morbid state of the liver, the irritation of the lungs immediately gives way. The liver is indeed connection, primarily or secondarily, as cause or effect, with various diseases of the head as well as other section the system.

parts of the system.

From these views, then, there can be no doubt that the disorders of the liver are of the first importance, and every effort used to remedy them should be conducted on rational principles, and by timely and efficient attention and the use of the most proper me licines, many very serious conse-

use of the most proper me licines, many very serious consequences may be prevented, which too often are entailed on the constitution by procrastination.

As a remedy peculiarly adapted to the cure of liver affections, Dr. Starkweather's Hepatic Blair has proved to be the most potent and efficacions, and every day's experience confirms more positively this assertion. It is candidly be lieved that no preparation has ever been before the public that has met with such unexampled approbation from distinguished sources, distinguished judges, and grateful patients as this medicine, and a greater amount of suffering tients as this medicine, and a greater amount of suffering has been initigated and more cures permanently effected by it than any other medicine extant.
